

# Come and let us hear your EurOpinions!

## EurOpinions: citizens' forum for young people

What sort of Europe do you want to be part of?

What public issues about Europe do you get frustrated about?

Do you feel that you would like to connect more with important people who make decisions that affect us every day?

What changes would you like people in authority to make on issues like the environment, migration, poverty, international security?

Don't just moan about it...  
...come and let us hear your EUROPINIONS!

If you're aged 16 to 25 and would like to attend a fun free event where you can express your views on European issues to people who really want to hear and make a difference then this event is for you.

There will be plenty of discussion and debate, electronic voting, performances, interactive workshops and much much more including an opportunity to put your point of view across to Members of the European Parliament.

Contact the member of staff below if you're interested in representing your organisation at the EurOpinions event below. Travel subsidy available.

### What previous participants have said:

*'Today has enlightened me and I have now formed my own opinions on this country's situation within the EU.'*

*'It was actually fun! Everyone always connects politics with negative connotations, but I really found it interesting!'*

*'I learnt a lot about the EU and how I fit into it.'*
